Where Wall Street Meets Wellness

THE RIGHT FINANCIAL ADVISOR IS THE ONLY RESOURCE YOU NEED.

Whether we're working with individuals, families, businesses or institutional clients, and that includes our endowments and foundations, the solutions we recommend will always be congruent with the objectives of the individual client.

We are accomplished and well-seasoned in every aspect of wealth management, and we are forward-thinking, seeking out the most beneficial opportunity for our clients. We consider their personal values as much as their goals.

For our institutional clients and small businesses, that includes their missions and mandates.

America's Top Wealth Advisors (Forbes.com Sept. 2019). America's Top Wealth Advisors ranking was developed by SHOOK Research and is based on in-person and telephone due diligence meetings and a ranking algorithm that includes: client retention, industry experience, review of compliance records, firm nominations; and quantitative criteria, including assets under management and revenue generated for their firms. Investment performance is not a criterion because client objectives and risk tolerances vary, and advisors rarely have audited performance reports. Rankings are based on the opinions of SHOOK Research, LLC and not indicative of future performance or representative of any one client's experience. Neither Forbes nor SHOOK Research receives compensation in exchange for placement on the ranking. For more information: www.SHOOKresearch.com. Source: Working Mother Magazine (October/November, 2019). SHOOK™ Research considered Wealth Advisors who are mothers with children living at home and under the age of 21. Ranking algorithm is based on qualitative measures that include: service models, investing process, client retention, industry experience, review of compliance records, firm nominations, etc.; and quantitative criteria, such as assets under management and revenue generated for their firms. Investment performance is not a criterion because client objectives and risk tolerances vary. Rankings are based on the opinions of SHOOK Research, LLC. Neither SHOOK nor Working Mother receives compensation from the advisors or their firms in exchange for placement on a ranking. For more information, see www.SHOOKresearch.com
